

Los Complejos Y El Inconsciente / The Complex and The Unconscious (Ciencias Sociales / Social Sciences) (Spanish Edition)

Discipulo de Freud y fundador mas tarde la escuela psicoanalitica rival de la vienesa, C. G. Jung se intereso no solo por la investigacion clinica y la practica terapeutica, sino tambien por los mas variados saberes, desde la filosofia hasta la antropologia, que pudieran arrojar luz sobre el alma humana. Los Complejos y El Inconsciente es la mejor exposicion de ideas y metodos del gran pensador suizo, abarcando su tecnica de analisis de los sueños, los arquetipos, la proyeccion -mediante la que el hombre imprime a los objetos exteriores los rasgos de su propia vida- y por ultimo los complejos, heraldos imprevistos del inconsciente que se comportan en el espacio consciente como cuerpos extraños.
