

## Regretting My Pot Addiction

On December 22, 2015, Jim Douglas took his own life. He wrote this book to warn people about avoiding addiction to marijuana, and became the most compelling reason. I found this book on his computer, and added only the word last in parenthesis on the index page. The tragic, quirky, and frightening stories in his book make a point that I cant. I knew my brother smoked pot. But I had no idea that he was addicted to it. I wish I couldve helped him. Any money earned by his book will go to his wife and the children of the people in his stories. If you know someone who just started smoking pot, this book may be your best chance to stop them from becoming an addict. I hope you can avoid the pain I feel, Gary Douglas.
