

Essential Box Set #3: Beauty Products For Beginners + Body Lotions For Beginners(Coconut Oils, Skin Care, Hair Loss, Aromatherapy, Essential Oils, Weight ... Essential Oils, Hair Loss, Healthy Living,)

Essential Box Set #3: Beauty Products for Beginners: The Secret Homemade Recipe Guide Using Essential Oils for Natural Skin Care, Hair Care and Body Care + Body Lotions For Beginners: The Ultimate Guide to Making All Natural Body Lotions for Glowing, Youthful, Vibrant Skin
BONUS RIGHT AFTER CONCLUSION!
Beauty Products: Basically, an essential oil contains aroma compounds found in plants. They are extracted from plants and are often fragrant or have distinctive scents that set them apart from artificial oils and products. Distillation is often the process done in order to extract oils from plants. Steam is essential in being able to get the oils out of the plants and in being able to preserve them well. Throughout history, essential oils have been used for a variety of reasons, such as for medicinal and aesthetic purposes. Using essential oils in beauty products is ideal because they come from plants, which means that they are natural and there are no side effects to using them. Using essential oils is also a form of aromatherapy. Plus, being able to create your own beauty products with the help of different essential oils would be so much fun. Aside from being able to use the products on your own, you may also sell them to your friends and colleagues. Start reading this book now and create your very own natural beauty products!
Body Lotions: The skin is more than just the covering of our body. It is the body's largest organ, and it has important roles in ensuring the healthy functioning of the entire body. One of the skin's major attributes is that it is semi-permeable. Because of this feature, certain substances can penetrate the skin while other substances are blocked. Therefore, the skin both protects and nourishes the body. To explain, several toxins are sweated out through the skin and there are lots of nutrients that are absorbed in the body through the skin. Bacteria are blocked from

entry in the body, and essential body fluids are contained. This fact indicates that what you apply to your face and skin is as essential as what you eat. In other words, natural cosmetics are as good as the natural food you eat. Most of the ingredients used in making natural products for your skin are usually found in your kitchen while other ingredients can be purchased from specialty shops selling natural, organic products. The recipes in this book use only organic plant based ingredients.
