Numerous studies have shown that not only will natural remedies improve your general health, but it can also extend your life span. They harness healing powers from nature, while at the same time, do not contain chemicals that are present in drugs bought from most stores. They're effective, cheap, and are less harmful to you than store bought options. Benefits of Natural Remedies: ?Cost-Effective: Drugs made by large pharmaceutical companies are expensive since they are processed, advertised and marketed as commercial products. Something as simple as ginger, garlic or honey can treat several types of minor illnesses. ?Fewer Side Effects: Its true that many over the counter medicines contain several ingredients that attack the intended ailments however they dont stop there.
